Summary

“Python Developer with hands-on experience in Django, Machine Learning, Computer Vision, and Data Analysis. Skilled in building scalable web applications, AI-powered systems, and REST-based projects using Python, Django, OpenCV, YOLOv8, MySQL, and JavaScript. Passionate about software development and problem-solving.”

Technical Skills

- **Languages:** Python, JavaScript, Core Java, C
- **Frameworks:** Django, Node.js, Express.js
- **Frontend:** HTML5, CSS3, JavaScript
- **Databases:** MySQL, SQLite, MongoDB
- **AI/ML:** OpenCV, YOLOv8, Machine Learning, Image Classification
- **Data Analysis:** Pandas, NumPy, Matplotlib, Power BI, Excel
- **Tools:** Git, GitHub, VS Code

Education

- **Master of Computer Applications (MCA)** – P.R. Pote Patil College of Engineering, Amravati | 2024 – Present
- **Bachelor of Computer Science** – Sant Gadge Baba Amravati University | 2021 – 2024 | **CGPA:** 70.18

Internship Experience

Python Trainee Intern — JK Innovative Pvt. Ltd. | Jan 2026 – July 2026 | Amravati

- Developed and tested Python-based web application modules.
- Assisted in backend development and database integration.
- Collaborated with team members using Git and GitHub.
- Improved debugging and problem-solving skills through real-world projects.

Projects

Quick Bid – Tender & Bidding System

- Developed a Django-based tender and bidding management system with authentication and admin dashboard.
- Implemented bid tracking, vendor management, and SQL database integration using Python and Django.
- **Tech:** Python, Django, SQL, HTML, CSS, JavaScript

KLAP – Kids Learning Assessment Project

- Built an AI-powered learning system using YOLOv8 and OpenCV for real-time object detection and image classification.
- Designed an interactive educational tool for children using Machine Learning and Computer Vision concepts.
- **Tech:** Python, YOLOv8, OpenCV, Machine Learning

SolarSquare CRM – Customer Relationship Management System

- Developed a Django-based CRM system for managing customers, leads, and project records securely.
- Implemented role-based authentication, CRUD operations, and database integration for efficient data management.
- **Tech:** Python, Django, SQLite, HTML, CSS, JavaScript

Speech Text Reader

- Developed a web application that converts text and images into speech using OCR technology.
- Designed a user-friendly interface to improve accessibility and digital content reading experience.
- **Tech:** HTML, CSS, JavaScript, OCR

Attendance Manipulator

- Developed a web-based attendance management system with backend APIs using Node.js and Express.js.
- Implemented CRUD operations for maintaining and updating student attendance records digitally.
- **Tech:** Node.js, Express.js, HTML, CSS, JavaScript

Certifications & Leadership

- **GitHub Copilot** | Microsoft | Hyderabad | 2025
- **Python Programming** | Hacker Rank | Gold Badge | 2025
- **MaTPO Aptitude Idol** | 2025
